Attached is our response to the preliminary issues and the new Ref. 2 and 89. I will also send tomorrow a new version of Ref. 3. Please let me know if you need anything else.

Lorie

Subject: Blades Groundwater – Preliminary Issues List

Hi Lorie,

Attached please find the list of preliminary issues and questions for the Blades Groundwater site draft HRS documentation record. These possible issues/questions focus specifically on reference/figure issues as well as questions regarding sources and aquifer boundaries. Please note that the attached list of possible issues/questions do not represent a comprehensive list of all issues remaining in the HRS documentation record, but rather those that we deem can be clarified and/or mitigated prior to the site's proposal to the NPL.

If you have any questions regarding this list of possible issues/questions, please do not hesitate to contact me. If we have any additional concerns that can be resolved or mitigated or other questions as we progress through final QA review, we will let you know.
